Old Boy—I believe so, my son!

THE first of the three lighthouses to be erected by the Imperial Maritime Customs in the vicinity of Hothow is now nearing completion. Mr. J. R. Harding is the engineer in charge, and Mr. Goddall the superintendent of works.

ON Tuesday, May 2nd, the China Navigation Co.'s steamer *New Zealand* had the honour of christening the new bulk at Amoy. Contrary to expectation, it did not interfere with traffic in any respect. IN view of the lawlessness prevalent in the interior of Siam, the *Prinze de Salgon* now daily demands a French protectorate over that country "in the interests of civilisation, and in accordance with the wish of the whole world." What we want to know is—who will establish a protectorate over France and suppress anarchy in the interests of civilisation?

THE American yacht *Sagamore*, the property of Mr. Edgar Scott, a Philadelphia who is on a cruise round the world, arrived here from Manila on Saturday. The *Sagamore*, which is a beautiful little three masted steam vessel 186 feet in length by 26 feet beam and 12 feet draught, now lying near the man-of-war wharves, is going to touch at several China and Japan coast ports and will probably return to the States in April 1895. It is a New Zealand, South America, Cape Colony and West Africa.

As will be seen from our advertising columns a couple of Edison's phonographs, the very latest and most highly improved, are on view at the Victoria Hotel. They are being exhibited by a talented manipulator who claims that the instruments are far in advance of any yet seen in the Far East, and quite up to date in songs, speeches, etc. They will only be on exhibition for a few days, and as the price is a popular one no doubt the "show" will take.

SATURDAY'S Government *Gazette* contains the following returns of the average amount of Bank notes in circulation and of specie in reserve in Hongkong during the month ended 30th April, 1894, as certified by the Managers of the respective Banks:

Banks.	Average Amount.	Specie Reserve.
Chartered Bank of India, Australia, and China...	1,523,564	800,000

	\$598,018	\$3,000,000

A JAPANESE vernacular newspaper says that the Korean Government being much concerned about the issue of the judicial proceedings now pending in Tokyo against Ishikawa, who is accused of having instigated the murder of Kim Ok-ik in Shanghai and plotted that of Bokei Yokoi in Tokyo, has instructed General Legation to use every possible effort in the accused man's defence, and that it has accordingly been decided to summon from Shanghai an English barrister of approved skill, who will act as *li's* counsel. The *Huipo News* observes that doubtless Mr. Drummond would be the barrister, but rather discredits the report.

THE spirit of retrenchment is abroad, and the police steam launch *Charley May* is advertised for sale by tender, closing on Tuesday the 22nd inst.—with the *Catalpa*, Secretary—She (the steamboat) is always "daisy" in spite of the most masculine nomenclature. It is to be replaced, the smaller launches being sufficient for all requirements of duty. The *Charley May* has never been anything but an expensive luxury, legitimately trenchable. Watson not but applied the prudent policy now pursued in the police. Economy, however, like any other good thing, may be misdirected, and several "recent reforms" in this department appear distinctly inadvisable; in the matter of clothing and boots, for instance, apart from the fact that a foot-cloth never looks smart in livery uniforms, we believe that some of the policemen's appointments stipulate expressly that the supply shall not get below a certain point, which it is now being sought to evade. This is a startling case of beginning at the wrong end; the saving should be effected in higher places—the Registrar-General's office and the Treasury, for example.

LADY Warrender, the wife of Commr. Warrender of the flagship *Centurion*, arrived here in the *Ganges* yesterday.

THE Panama Canal Company is said to propose raising a further capital of \$500,000 to resume work on the canal. That would hardly make a beginning of the undertaking. This company seems to be getting very active just at the Nicaragua scheme is meeting with promising consideration in Congress.

A GREATLY worried delegation of Swiss Israelites have reached Paris to try and make arrangements with French butchers to kill cattle according to the Hebrew ritual and send the meat to Switzerland. It seems that the Swiss authorities have decided that the Jewish system of bleeding animals to death was cruel, so have promulgated a decree that either the animals must be instantly killed or else dropped, so as not to suffer from their gradual demise.

A KOREAN contemporary learns that a Korean letter dated the 14th states that the residents of Kofu in the Zenra Province, numbering about ten thousand, have raised a tumult. The men are armed with swords, and have yellow flags. They murdered three officials during the night, and Shibusu, a distinguished local official, narrowly escaped from the same fate, fleeing in a boat. The mob broke into the store-houses and took away a big quantity of rice. They intend to attack the capital. The King, King, Sal Jiko, is one of the Tokyo-to leaders. Sal Jiko were despatched to subdue the disorder, but were unable to stand before the angry people. The message further states that Ming Yen-chun has been released from his appointment of Minister of War, and Li Shogo has succeeded him in that position.

THE *Civil and Military Gazette* thinks that it will be found that the Oplum Commission has been an extremely good thing for India, despite the somewhat "hypocritical" outcry that was raised against charging that country with the cost of it. The expense, says our contemporary, has been very trifling, and the result is likely to be a smashing blow to the fanatics and doctrinaire sentimentalists, whose allegations have been put to the test, and shown to be chiefly frothy rhetoric and inaccurate assertion. It will not, of course, silence the anti-opiumists, but it will convince cool-minded men, and for some time to come we shall have much less declamation and much more caution in laying down the law and prescribing a policy. This will be no slight thing in India. But our new Secretary of State is the holder of the Non-Committal motto, and is said to be interested in what is called the moral side of the administration.

At the Magistracy to-day, before Commr. Hastings, a coolie named Fok Ho was charged by J. H. Logan, preventive officer in the service of the Hongkong, Canton and Macao Steamboat Company, with having 560 taels of prepared opium on board the steamship *Powson* on her arrival from Canton on the 5th inst. The evidence showed that a Chinese excise officer saw defendant going off the ship with a box, and asked him what was in it? Defendant said he did not know, and had no idea how the box was sent, and the coolie then said the box contained drugs; opium; it also produced a key, and when opened the box was found full of opium. The man said he had no papers or papers of any kind with the opium and he was accordingly handed over to a European policeman and taken to the Central Station, where he produced a pass from the Oplum Farm in due form, covering the transit of twenty tins of opium from Canton to Hongkong for export to America. The case was accordingly dismissed by the magistrate.

RELATIVE to the new treaty negotiated but not yet signed between the United States and China, the San Francisco *Bulletin* has the following:—Every step of the way in Chinese restrictive legislation was wrought out in the manner common to self-governing communities. Every one of the Acts which comprise the series was hotly debated in committee and argued at length in both Houses. Every organ of public sentiment was brought into play. But the business of knocking the whole structure over is much more silent and smooth. The method of which Mr. Yang Yu, the Chinese Minister, is availing himself to repeal anti-Chinese legislation works almost noiselessly. The new treaty has been reported to the Senate by its Foreign Relations Committee favourably. It has got through its first stage quite easily. The public would not have known that there was anything going on but for mere accident. The whole process is secret. What is done openly in both Houses of Congress can be reversed by two men sitting with down closed. It is for this reason that Mr. Yang Yu is meeting with much success in his mission. He has taken in the whole lot with which he has so far come in contact. He came to undo all that has been accomplished by popular agitation against the yellow horde, and he has so far succeeded. Our people do not count. The movement has been so sudden and speedy that it appears to have taken everybody by surprise. It has not yet been realized generally that under the proposed treaty every Chinese, by a consent to a little bit of fiction, can send back another Chinaman to take his place. But what is worse still, Canada on the north, Mexico on the south and Japan on the west can fit up with alleged Chinese merchants, teachers, students and travellers, who are not required to register, and cannot, therefore, be traced or located.

ALTHOUGH Francesco Crispi, Italy's Prime Minister, is never described as an old man, he is, nevertheless, in his seventy-fifth year. He looks scarcely 60, for his hardships in the ranks of the revolutionists and in exile never caused him a day of dangerous illness.

THE remarkably variable weather that has been experienced along the China Coast for the past six weeks has given the medical faculty a lot of hard work. In Amoy and Foochow, *la grippe* has been very prevalent, while in Tamsui the fever has already begun to attack newcomers from the mainland.

ELGIN STREET, an off-shoot of Calao Road, was within an ace of being the scene of a fire at 8 o'clock on Saturday evening, owing to sparks from the Club Lusitano's kitchen chimney igniting the eaves of house No. 30 in that street, which is situated immediately behind and contiguous to that rendezvous of Lusitanian *diva* society. Fortunately, Mr. J. Barros, who resides at No. 32 in the same street, happened to observe the danger before much damage had been done, and with a few buckets of water, judiciously applied, succeeded in putting the flames out.
